UNDER PRESSURE

Where were you on New Year's Eve? It had to be one of the busiest nights for a long, long time. I could have charged fifteen on the door to my front room and had takers! Most popular events were probably Elevation at their new massive venue in Heston and the Mud Club bash at Bagleys. Everyone who went out on New Year's Eve with an advance ticket quickly realised the wisdom of shelling out beforehand as some venues were charging in excess of £30 on the door and getting away with it! Ticket prices do seem to be on the up this year after a long time of really low prices, which should result in better production and more interesting DJ line-ups. I for one would rather pay £15 and go to a couple of really good events a month than £7 for a boring night out every week. It makes clubbing or raving more of a special occasion anyway and leaves time for normal weekend living!

January is traditionally a very quiet month but not in '94! What looks set to become the best club of the year opened its doors on Friday 14th January to a packed house. Yep, Universe does it again proving that even with all their setbacks last year they still can take chances and provide their own special brand of magic. Cosmic Baby P.A'd and provided the best music of the night, closely followed by Tintin and the second half of Billy Nasty's set. It was good to be at a club where everyone had come to hear the music. Everyone I asked someone who was playing, they knew. Straight away. And had an opinion on the set (usually favourable, I must add). Shame about the venue though. After all the hype I expected a little more than a Sharon & Tracey affair, festooned over with papier machee flying fish. Pop art? As if! It was hot, very hot and with all soft drinks at £1.50 not a place to stay in too long. But this is all down to United Kingdom/Hollywoods and not Universe. Credit for the sound system, courtesy of Eskimo noise must be given, as must the patrolled multi-storey free car park next door to the venue. I will definitely be visiting again and if The Final Frontier moved to a better home, I would probably be there every week.

Friday night at the Paradise in Islington will now be known as Tribal Dance and Elevation are no longer involved, preferring to concentrate on their legendary one-offs. Their next date looks likely to be in March, but this could change, so keep a look out for the flyers. World Dance are back at Lydd Airport again on 5th February and AWOL stays busy every Saturday. An interesting night out that happens every so often on a Thursday at Heaven (the last being January 20th) is Megatropolis. A huge, massive event where anything can happen and is sometimes even free. We're obviously looking forward to our next Double Dipped on 26th February at Bagleys/sevent and if you want the flyer through the post just give us a ring!

FLORIDA UNDERGROUND

Mid Florida Underground Clubbing

So everyone thinks Mid Florida is full of Theme Parks, Mickey Mouses and Theatrical Sharon and Tracey Night Clubs... THINK AGAIN!! There is an Underground scene and the Yanks certainly know how to party.

1st Rule: Don't go out before 12 am, because nobody will be out! The locals theory behind this is that the "Beer Boys" and "Binbo's" all start going home at this time therefore the town won't be cluttered up with Piss Heads and Thugs, and it is true!! It works.

The Underground Clubs start getting busy around 1-2 am and the main buzz happens around 4-5 am. The night goes on and on and on and on!! Basically until the last punter goes home. There are no laws out there to stipulate when to stop partying.

Where do we go?... Lets start with Down Town Orlando.

1) **The Abbeys** - This is a typical small Underground Club with a kickin atmosphere. It has a local friendly crowd and a lot of respect in town. Happening nights Fridays and Saturdays, definitely worth a visit...Awesome!!

2) **Barbarellos** - A mid week night with the odd one off Gig on weekends. Tuesday night is the night with DJ Kimball Collins, Floridas main man. This guy manages to pack all of Orlando House Junkies into this small double roomed venue. A definite visit recommended.

3) **The Edge** - This is a late night visit only. Why? Because this Club is a combined Commercial/ Underground Club. The Beer Boys go home before 2 am and make room for the serious punters that pack the place until 7 in the morning. Fridays and Saturdays are the "Housey" nights and watch out for the odd Record Label promotion

weekend... This huge warehouse certainly kicks ass!

4) **Co coa Beach** - The home of Ron Jons Surf Shack... Drive one mile down the road, southbound, and you'll find...

5) **Martx** - a converted cinema where massive, buzzin, one off raves happen. People travel 1000 miles + to come to this place... say no more!! Don't miss this gaff.

6) **Gainsville** - Simons is the place to look for and it is worth the 150mile drive from Orlando. Yet again a small club with the homely Underground feel, very much for the serious punter... No Ravers!!

7) **Tampa** - There is only one Underground Club in this huge town. The Groove. This is a new club in town and the Yanks succeeded to make a brilliant atmosphere with their friendly manners. The Groove is a converted store/shop and has a typical Underground feel, no

carpets, no chains, no alcohol, and smoke, smoke, smoke!! Fridays and Saturdays are the main nights.

Look out for many one of raves around Florida. 1000-2000 + people, flyers can be found at an Underground Record Store situated in Down Town Orlando (or on your car if you go clubbing).

The music in Florida is very much House/France oriented, no Hardcore (sorry UK Techno Heads!!), and the Yanks are very protective about their own local DJ's that they love and cherish. But they all are brilliant.

Look out for DJ's: Kimbal Collins, D-Xtreme, Andy Hughes, Stylus and Dave Canale. If you see these Guys on a flyer you'll have a good night.

That's about it, follow these tips and you can't go wrong... So off you go down to your local Travel Company and book yourself a blinding holiday in Florida, but remember be careful and be streetwise!! See you out there DJ John "OO" Fleming

If you would like to see your photo in print, send us the photo and we'll do our best to print it. Unfortunately, we won't be able to send it back though so make sure that you only send a copy!

SLAMMIN' TRAX

HYPER-ON-EXPERIENCE (Moving Shadow)

Hyper-on - Experience simply goes from strength to strength and this time is no exception. "Disturbance" combines a trancey vibe with a flowingly dark breathal throughout. Packed with unique sounds this track not only promises but delivers a quality of hardcore that is second to none. "Monarch of the Clen" is my favourite track with clever use of sea-life noises and an underground drum-loop. Uplifting, catchy and an excellent buy.

9/10

NAUGHTY NAUGHTY 4 (Oven Label)

Once again the Naughty Naughty boys prove they're masters of sampling that club classic of '89 "Definition of Love" by Kaos, whilst the other is more upfront sampling Goodtimes "Give It Up". In true Naughty Naughty style they're guaranteed to rock any dance floor. Flowing strings and wicked breakbeats makes this a must for the hardcore vibe.

8/10

INFORMATION CENTRE (Raft Knutfranz Records)

More value for money from the Ruffcut/fancy crew. A double pack 10" with mixes from those who do it best. Pick any track at random and you're guaranteed a trip to the darkside. If you like it ruff, ruff and with plenty of originality, then these tunes are a must for the collection. 7/10

OMNI TRIO (Moving Shadow)

Renegade States Remix

It seems moving shadow can do no wrong and they certainly prove their worth with this 10" remix. Designed to be massive after the huge success of the original the remix does justice to the hardcore scene with two tracks of pure quality. 9/10

POUR LOVE (89 Revival) Oven Label.

Yet another '89 revival that promises to deliver. Candy Station vocals over the top of a popular breakbeat definitely makes this one for the ladies. This is happy hardcore in an element of its own. Catchy lyrics and an uplifting tempo makes it a must for those of you who

favour the happy buzz. 7/10

DJ's Anthem (Formation)

Two stellar tracks from this true hardcore label. Appropriately titled DJ's Anthem a thumping original breakbeat and a cut up Edge sample makes this a true well worth having. For a bonus flip it over and you have "The Bounce". A slump melodic breakbeat with wickedly unique samples. Another formation classic and a must for the real hardcore. 8/10

DJ's UNKNOWN (Homegrown Records)

If sampling's your thing then this record is a must for you. Uplifting vocals, kicking piano melodies and a rhythmic breakbeat makes this a tune for every occasion. If it's possible to show originality in sampling then these boys have got it sorted. What more can I say? 8/10

T-POWER & SKIE (Soupbar) Brave New World

Definitely an anthem. Simply take some uniquely wicked sounds, a relentlessly banging breakbeat and a lot of talent, mix together and you've created a stonper of a tune. This is a track for all ravers, touching on all the various dance vibes. Whether you like it dark or happy you'll love this tune. 8/10

COMBINATION TWO (Active Records) Signals

Uplifting Hardcore and uplifting piano breaks will surely ensure success for this track. This is how true hardcore should sound, differing breakbeats cleverly meshed with familiar samples makes this tune flow with power and ease. Pigging & Vibes, keep up the good work! 9/10

NOOKIE (Reinforced) Give A Little Love

The long awaited remix of Nookie's "Give A Little Love" is certainly no disappointment. Still retaining the old originality but adding new piano variations to give it a new lease of life. The original was huge - this promises to be even bigger. If you like the happy vibe there can be no doubts with this tune - it must be bought. 10/10

The Bottom Line

After nearly a year Ravescene/Double Dipped and Labrynth have decided to pursue separate interests. Labrynth will continue to host the ever popular Club Labrynth at 12 Dalston Lane E8 every Friday & Saturday night, whilst we at Ravescene will be concentrating on the magazine and starting Double Dipped again, the next date being Saturday 26th February at Bagleys. For information relating to Club Labrynth please telephone 071 247 0789 and for Double Dipped phone 081 524 7347.

Congratulations to Jimmy J on the opening of your new record shop, and also to Kevin at Slam! Records in Chadwell Heath. After nearly a year of closures it is refreshing that people are once again taking the chance to begin new ventures.

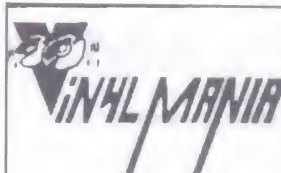

A big shout to Marc in Herne Bay - haven't heard from you in ages, what's up?

The Cambridge scene seems to be looking up, led from the front by Kathy & Mike of Body Art. They are involved in a club night every other Thursday at Route 66 and have even recently been featured on the front cover of Melody Maker. Their body painting is second to none, completely transforming the subject.

Best wishes to Danny Gee who is off to Australia for six months.

A new look could soon be coming to Friday night London clubbing, first Universe and next month.... Watch this space and think of an under-utilised venue with a 6am licence that everybody has fond memories of!

Jungle Fever are back in Coventry this weekend after a successful party there before Christmas. Life & Utopia haven't announced any new dates as yet, but rest assured that they will definitely have something soon. Bass Box looks set to shut soon as reported in the local press recently. Poor attendances over the last year haven't helped the situation.
